VET PACS
Scalable solutions which grow with you and your practice

Are you thinking of changing your imaging system to digital? Look at what we can do for you: we can create a starting point for digital imaging technology for your practice, technology that has cutting edge diagnosis tools, allows you to keep digital records, achieves a more efficient data workflow and has an upgrade path.

Talk to us, we have the solution for you and now in a dedicated vet platform, **VET-VIEW**. We have bundled the hardware and software into Vet PACS allowing you to choose the best solution that meets the needs of your practice, small or large. Ask about the family of VET products.
